Transportation Master Plan

The Township of Bonnechere Valley has retained McIntosh Perry to undertake the development of the Township's Transportation Master Plan (TMP). The TMP is a strategic policy document that will serve as a road-map for short-range, medium-range, and long-range transportation infrastructure investments. The plan will guide how we:

- Develop our roadways
- Coordinate infrastructure improvements with land uses
- Respond to future growth and demand on our transportation network

The Township of Bonnechere Valley is undertaking its first TMP in parallel with the County of Renfrew's TMP as well as the following municipality's TMPs:

- The Town of Arnprior;
- The Township of Horton, and;
- The Township of Whitewater Region.

Phases

The Transportation Master Plan has three phases that will follow the Municipal Class Environmental Assessment (MCEA) process:

1. Assess the existing conditions, area context and specific challenges
2. Assess traffic operations and road safety including:
 - Assess the Township's transportation needs
 - Develop preferred solutions to meet those needs
 - Update existing policies and develop design standards to align with our goals
3. Refine the preferred solutions and develop a comprehensive TMP document

Have your say

An important part of this study is consultation with residents, stakeholders, and the Township's agency partners. We want to hear from you on the issues and opportunities that you see for the Township's Transportation System to the horizon year of 2033.

At any time during this study, you can provide comments, questions and concerns to the project team.

The project team will host a Public Information Centre (PIC) to gather public input and present findings of the study. The PIC is anticipated to be hosted in early 2024. A PIC Notice will be published at least two weeks in advance providing the date, time, and location of the meeting.

Stay tuned for project updates on the [Township's project website](#) and provide your input!

Privacy Statement

Information is collected under the authority of the Municipal Act. Information collected will be used and managed by the Township of Bonnechere Valley in accordance with [The Municipal Freedom of Information and Protection of Privacy](#).
