ELECTRICAL SAFETY CODE

Part 1, C22.1-02, made applicable by O.Reg. 164/99, as amended

Electrical Inspector telephone

2-004 Inspection

- (1) A contractor shall file with the inspection department a completed application for inspection of any work on an electrical installation:
 - (a) Before or within 48 hours after commencement of the work whether or not electrical power or energy has been previously supplied to the land, building, or premises on which the work was performed;
 - (b) Shall pay the fees prescribed by the inspection department; and
 - (c) Be in compliance with Ontario Regulation 570/05 made under Part VIII of the Electricity Act, 1998.
- (2) An application for inspection which has been refused in accordance with the provisions of Rule 2-008 shall, for purposes of Subrule (1) hereof, be deemed not to be a completed application.
- (3) Every contractor who undertakes an electrical installation is responsible for ensuring the electrical installation complies with this Code and for procuring an authorization for connection from the inspection department before the installation is used for any purpose.
- (4) The contractor shall give to the inspection department at least forty-eight hours' notice in writing that the work on the electrical installation has been completed and that the installation is ready for a connection authorization, but where the work is being performed in a remote district or is not immediately accessible for any other reason, the notice shall be of such greater length as is necessary to accommodate the inspection schedule of the inspection department.
- (5) Inspections as required by the inspection department may be made at such time and in such manner as the inspection department determines.
- (6) An electrical installation shall not be concealed or rendered inaccessible until it conforms to this Code and such concealment or rendering inaccessible has been authorized by an inspector.
- (7) An inspection may be deemed by the inspection department to have been made for an electrical installation or a group of electrical installations and connection authorized even though all portions of any installation in the group and all installations in the group have not been inspected subject to conditions set out in the Code. See also Subrules (8-11).
